High five for Kalmar and SLP

Tuesday 12 March 2019

Kalmar, part of Cargotec, has signed an agreement to supply Bilbao-based port operator Servicios Logísticos Portuarios (SLP) with five heavy-duty forklift trucks.

The units are scheduled for delivery in the third quarter of 2019 and will be primarily used to handle steel mill products.

SLP's trucks will feature a lifting capacity of 33 tons (30 tonnes).

Based in Bilbao, SLP handles a wide range of bulk, breakbulk and project cargoes.
